STARGAZE

"Exploring beyond limits"

OVERVIEW

The field of astronomy is an ocean full of immense knowledge, with a plethora of unraveled mysteries. Domains like astronomy, astrophysics, aerospace excites everyone and develops within us a curiosity to expand our reach of knowledge beyond the sky.

The Astronomy Club, GCOEN, with the motto to nurture interest of students in the field of astronomy brings to you 'STARGAZE 2023', where we will witness amazing guest lectures from various fields of astronomy by experts, exploration sessions and much more!

PROPOSED EVENTS AND IDEAS:-

SPACE GALLERY:-

An exhibition of constellations, live models, and stuff related to astronomy which will be a visiting spot for participants. All of this will be prepared in a room allotted to us by the Adhyaaya Team. This room will also serve the purpose of organizing guest lectures and presentations if any.

GUEST LECTURE:-

Telescopes are the strongest weapons in the arsenal of a space enthusiast. To learn about the science behind these awesome devices which truly explore beyond the limits, we present to you a guest lecture organized by _____, a _____ having one of the most powerful telescopes in Nagpur.

INTERNATIONAL GUEST WEBINAR:-

(*only if the schedule meets the requirements of our invited guest)

NIGHT-SKY OBSERVATION SESSION:- (Entry fee 59/-)

Explore the night sky through the lens of the telescope of Astronomy Club, in the form of gripping stories and facts. (The schedule will be prepared according to allotted dates and event in subject to postpone or prepone depending upon overall weather conditions, and affecting factors)

COORDNIATOR:-

Vedant Gotmare: 9921707207

ENTRY FEES: 59/-
